

**Corporate Profile**

**2019**

V 2.7

## Digital Transformation Services

- Digital Application Development
- Microservices Development & Containerization
- Service-oriented Architecture & API
- BPM & Robotic Process Automation
- Business Rules Management

## Business Insights

- Reporting & Dashboards
- Data Marts & Data Lakes
- Operational Data Stores
- Extract, Transform, Load (ETL)
- Visualization

## DevOps

- User Stories
- Source Code Management
- Code Review & Coverage
- Build & Deployment
- Configuration Management
- Infrastructure as Code

## Cloud Services

- Cloud Migration
- Cloud Foundry
- Private Cloud
- Cloud Infrastructure Management

## Middleware Services

- Monitoring
- Incident Management
- Problem Management
- Installation & Configuration
- Performance Tuning
- Architecture Consulting
- Security Implementation
- Upgrades & Migration

# Our Skills At A Glance

## Digital Transformation Services

- **Digital Application Development**
  - AngularJS
  - Native/Hybrid Android & iOS
  - HTML5, jQuery
  - Java/J2EE
  - Microsoft .Net
- **Microservices Development & Containerization**
  - Node JS, Spring Boot
- **Service-oriented Architecture & API**
  - IBM IIB
  - Oracle SOA Suite
  - Mule ESB
  - API Connect
- **BPM & Robotic Process Automation**
  - IBM BPM
  - IBM RPA
- **Business Rules Management**
  - IBM ODM
  - JBoss Drools

## Business Insights

- **OBIEE**
- **IBM Cognos**
- **MSBI**
- **Tableau**
- **QlikView**
- **Power BI**
- **DataStage**
- **Informatica**
- **Jasper ETL**

## Middleware Services

- **IBM**
  - WebSphere Application Server, IBM MQ, IIB, IBM BPM, API Connect, FileNet
- **Oracle**
  - Oracle WebLogic Enterprise, OBIEE, Oracle WebCenter Content
- **Red Hat**
  - RHEL, JBoss

## DevOps

- **Git / AWS CodeCommit / Atlassian Bitbucket**
- **JIRA**
- **Jenkins**
- **SonarQube**
- **Selenium with TestNG**
- **Ansible**
- **Chef**
- **Docker Compose**
- **Kubernetes**
- **AWS ECS**

## Cloud Services

- **AWS**
- **IBM Bluemix**
- **Google Cloud**
- **Pivotal Cloud Foundry**

1

## Managed Services

- Round-the-clock service
- Agreed fixed fee for defined scope of work
- Defined Service Level Agreements

2

## Projects

- Traditional model of Fixed Priced Projects based on estimates

3

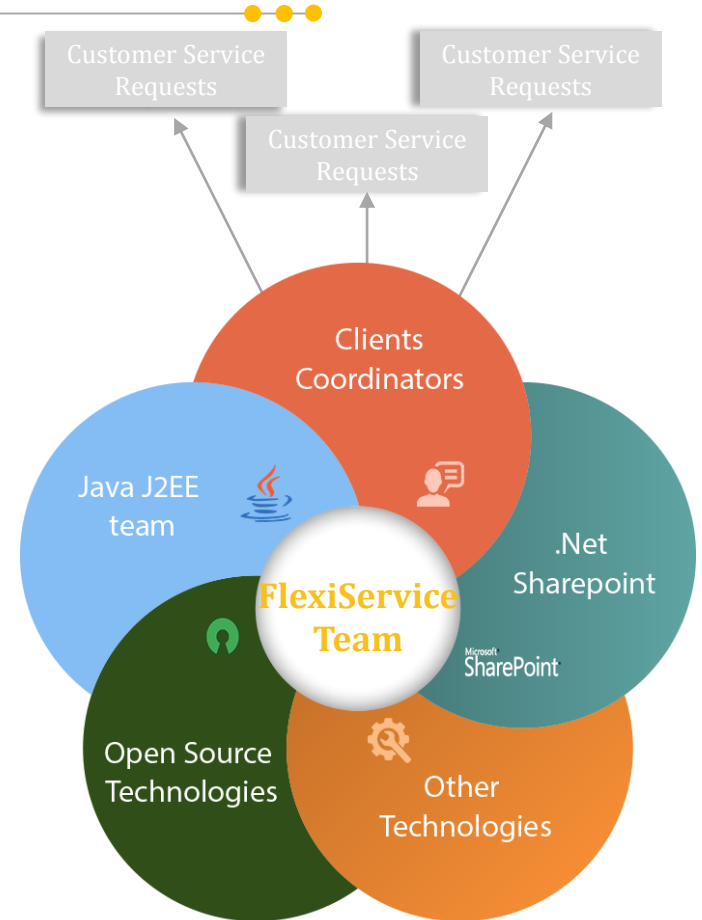

## Professional Services

- Quick & timely deployment offshore & onsite
- Pre-screening of resources to ensure proper fitment

4

## FlexiService

- Pay per hour of service consumed
- Reduced overhead
- Dynamic scalability, takes care of sudden bursts of work

“ MindCraft has helped Discovery Semiconductors, Inc. formulate a long-term software strategy to help transition our products to be in conformance with the IoT paradigm. Discovery Semiconductors is an industry leader in manufacturing ultrafast, high optical power handling InGaAs photodetectors, RF over fiber optical receivers, balanced optical receivers, extended wavelength photodetectors, and several custom products for applications ranging from analog RF links to ultrafast digital communications.

**Abhay Joshi**  
**President & CEO, Discovery Semiconductors, Inc.**

“ MindCraft has been our technology partner since 2014, providing offshore services for technical infrastructure and software development. As we have grown over the years, we have been pleased how MindCraft has been there with us every step of the way.

Frequenz is the leader in Traceability Technology for Life Sciences, Food/Seafood and CPG. Our products help Customers create transparency and gain insights about their supply chain. MindCraft has provided System and Database Administration, product documentation and software development.

We've always been happy with the MindCraft staff: they have always shown dedication, commitment and integrity in their work.

**Byron S. Lee**  
**Chief Technical Officer, Frequenz**

“ We enable global financial services firms to provide a customized digital advisory platform (Robo-advisory) to their wealth advisers and clients. MindCraft fulfilled our need for a reliable and trustworthy technology partner. They have provided us a great team of technology experts that has not only helped develop and enhance our product, but also assist us in implementing it for our customers, which are large financial services organizations.

For Invescence, MindCraft is a one-stop shop that provides offshore services for our mobility, web/portal development, UI/ UX and Integration requirements. What I admire most about them, is that they have been available at all times and are willing to go the extra mile to get the job done. Their domain knowledge is an added advantage. With a deep knowledge base of MindCraft team, we have a great confidence in delivering future projects and support required by our clients with great efficiency.

**Jigar Vyas**  
**Founder & CEO - Invescence, Inc.**

“ The team at MindCraft has always gone the extra mile to ensure that everything is delivered on time, and is done right - the first time. They develop rapid application development tools and reporting platforms for us. From the start, the team has been focused on the key aspects of the deliverables and have remained committed to our time lines. We have had very few issues, but when we do they are always resolved quickly and professionally.

The Harrier Group currently focuses on the development of web-based, data-warehousing reporting and other custom applications for the financial services industry. The deep technical knowledge, extensive experience and passion for work that the MindCraft team exhibits enable us to focus on what we do best.

**Robert Riviera**  
**Principal, The Harrier Group**
